OUR SCHOOL:

Just as one size does not fit all, neither does one type of educational approach work for all families. We are a learning community composed of parents/caregivers, children, and teachers working together for the best educational outcome. Through multi-age classrooms and individualized learning plans, children are truly supported in becoming self-directed learners. Multiple assessment techniques are analyzed to make sure that each student masters skills in sequence. Literacy, character development, and self-esteem are the cornerstones of our school.
